National Coaching Symposium

2003 Women's World Cup

Competing for one of the world's most prodigious awards presents a whole new level of pressure, scrutiny, intensity and preparation for a coach. The United States Soccer Federation is offering a way for coaches to gain insight into how the Women's National Team coaching staff manages to achieve success on this stage. With the Women's World Cup being played here in the United States, we have the unique opportunity to give unprecedented access to US Soccer Coaching Organization members and provide a truly special CEU opportunity.

Program Schedule

A US Soccer National Staff Coach plus one or more members of the Women's National Team coaching staff will discuss topics including preparing for and playing in a major international tournament to a limited group of coaches two days prior to each scheduled U.S. Women's National Team match. In addition, there will be a segment on using video analysis in coaching. This game-related symposium is open to all coaches, with "A" License coaches earning one (1) Continuing Education Unit toward the renewal of their license.
